The Gang Injunction Settlement of “Rodriguez v. City of Los Angeles” requires the City to provide employment and training services through the Los Angeles Reconnections Career Academy (LARCA 2.0) – Jobs and Education Program. The services will be provided by the City’s contracted service providers, however, the program, in its various stages, will also be evaluated for effectiveness by CSUN. CSUN is conducting this evaluation as appointed by the court for the Rodriguez Settlement. The primary objective of the study is to formally track and assess the extent to which the program achieves its stated outcomes during all phases. The secondary objective is to provide formative evaluation data to address any management issues related to program implementation, early in the process so the program can be adjusted. The third objective is to identify the survey approach that is best suited to the target population served by the LARCA 2.0 Program.

We, at the University, would like to ask for your consent to participate in this study. If you agree to participate in the study, the researchers at CSUN will have access to some information about you that would otherwise be private. Access to that information will strengthen our study. If you do not agree to participate in the study, you will not be penalized in any way. You may continue to participate fully in the LARCA 2.0 Program, even if you do not participate in the study.

If you agree to participate in the study, researchers at CSUN will not have access to any identifying characteristics of yours, such as identification number, phone number, or address. CSUN is required by federal law to have permission from you.

The following things will happen as part of the research:

- We will ask your permission to gather data applicable to you from several sources, including information gathered through focus groups, surveys, case manager notes, and/or CalJOBS.
- We will ask your permission to collect your records.
- If you agree, we will then request these data for research purposes. We will never see your name or identifying information. Remember we will never know your name or have identifying information about you.
- If you decide that we cannot gather this information, we will not ask for it. You can still participate in the LARCA 2.0 Program but will not be part of our research study.
- If you agree to participate in our study, we will report our findings so that no one will be able to identify you.

Your permission will allow us to learn more about how LARCA 2.0 works and benefits you. The results of this research can help improve future programs such as these so that individuals will benefit even more in the short- and long-term.

- **Voluntary Participation:** You do not have to give permission. You may withdraw your consent at any time. Not giving permission will not affect your participation in the Gang Reduction Program in any way.
